

B. C. Chapter Meeting

Area Rugs – Which Ones Bite

Many rugs can be safely cleaned using methods familiar to carpet cleaners, but with designers pushing the boundaries of rug construction it has become critical to identify what can and shouldn't be cleaned depending on experience and equipment available.

The focus will be on rugs that any cleaner will commonly see, and identifying which ones are safe to clean and which may be more problematic. There will be a few that are odd or unusual, just to show you what designers can make to trip up the unwary cleaner.

Aero Carpet Services will host this meeting and provide a tour of their brand- new state of the art cleaning plant .

Bring a notebook!

Who should attend: Company owners, Managers, Technicians

When: Monday May 16, 2011

Time: Dinner at 6:00 PM, presentation to follow

Hosted by: Aero Carpet Services Ltd.
Unit 111 - 42 Fawcett Road
Coquitlam B. C.
www.aerocarpetervices.com
