

# CCINW Meeting

Tuesday, March 26, 2013  
Interlink Supply - Tukwila

## M O L D

**Speaker: Ken Sellers**

Ken is in town to teach the four-day Applied Microbial Remediation Technician (AMRT) course. He is willing to condense the entire class into 90 minutes - just for CCINW members!

But... we thought it would be too difficult to take notes, so we've asked him to cover anything new in the world of mold remediation: detection and testing, liabilities, and any other issues we face when we run into the moldy stuff.

**When: Tuesday March 26, 2013**

**5:30PM - Dinner at 6:00P – Presentation to follow**

**Where: Interlink Supply**

641 Industry Drive  
Tukwila, WA 98188

**Cost: \$25.00 CCINW member** (f space reserved by Monday the 25th)

**\$35.00 at the door or non-member**

**RSVP: 877) 692-2469 or email: [info@ccinw.org](mailto:info@ccinw.org)**

Ken Sellers got his start in the cleaning industry sanitizing restrooms. Since then he has grown and sold a multi-truck cleaning company, worked with franchised restoration companies, been a consultant and trainer, and is a member of the prestigious Restoration Leadership Institute.

**Remember:**

**Attendance at CCINW-WW chapter meetings earns ½ IICRC continuing education credit**
